

SMEPLUS Business Capability Model v0.1

Project: SMEsPlus Enterprise Suite

Document Code: SMEPLUS-BCM-v0.1

Status: Draft for Architecture Office Review

Owner: Project Owner

Architecture Authority: ChatGPT / Virtual Enterprise Solution Architect

Execution: Claude AI

Tracking: Jira

1. Purpose

Business Capability Model (BCM) ใช้เป็นแผนที่ความสามารถทางธุรกิจของ SMEsPlus Enterprise Suite เพื่อเชื่อมโยงจากระดับกลยุทธ์ไปสู่การออกแบบระบบ การสร้าง Jira Epic และการพัฒนาโดย Claude AI

โครงสร้างการเชื่อมโยงคือ:

Business Capability

→ Business Process

→ Module

→ Feature

→ Functional Requirement

→ Jira Epic / Story

→ Claude Task

→ UAT

→ Release

2. Enterprise Capability Groups

SMEsPlus Enterprise Suite แบ่ง Capability หลักเป็น 12 กลุ่ม

Capability Group	Code	Description
SaaS Platform Management	CAP-SaaS	จัดการ Tenant, Subscription, Package และ Module Activation
Identity & Access Management	CAP-IAM	จัดการ User, Role, Permission และ Security
Customer Relationship Management	CAP-CRM	จัดการ Lead, Customer, Opportunity และ Sales Pipeline
Sales Management	CAP-SAL	จัดการ Quotation, Sales Order, Delivery และ Invoice
Procurement Management	CAP-PUR	จัดการ Purchase Request, RFQ, Vendor Response, PO และ Vendor Bill

Capability Group	Code	Description
Inventory & Warehouse	CAP-INV	จัดการ Stock, Receipt, Picking, Transfer และ Valuation
Manufacturing Management	CAP-MRP	จัดการ BOM, Production Order, Work Order และ Quality
Financial Management	CAP-ACC	จัดการ Invoice, Payment, Journal, Tax และ Reconciliation
Human Resource Management	CAP-HR	จัดการ Employee, Leave, Attendance และ Approval
Service & Project Management	CAP-SVC	จัดการ Ticket, Task, Assignment, Timesheet และ Service Closure
Document & Approval Control	CAP-DOC	จัดการ Attachment, Document Workflow, Approval และ Evidence
Executive Intelligence	CAP-EXE	Dashboard, KPI, Exception Alert และ Decision Support

3. Capability Decomposition

CAP-SaaS — SaaS Platform Management

Capabilities

- Tenant lifecycle management
- Subscription plan management
- Package entitlement
- Module activation
- Usage limit control
- Configuration center
- SaaS billing readiness

Related Modules

- SaaS Foundation
- Configuration Center
- Subscription Management
- Module Activation Console

Jira Epic Examples

- EPIC-SaaS-001 Tenant Management
- EPIC-SaaS-002 Subscription and Package Management
- EPIC-SaaS-003 Module Activation
- EPIC-SaaS-004 Configuration Center

CAP-IAM — Identity & Access Management

Capabilities

- User invitation
- Role assignment
- Permission control
- Company / branch access
- Tenant isolation
- Auditor access
- Login and activity audit

Related Modules

- Identity Management
- Role Permission Matrix
- Security Console
- Audit Log

Jira Epic Examples

- EPIC-IAM-001 User Management
 - EPIC-IAM-002 Role Permission Control
 - EPIC-IAM-003 Tenant Access Isolation
 - EPIC-IAM-004 Security Audit Trail
-

CAP-CRM — Customer Relationship Management

Capabilities

- Lead capture
- Customer qualification
- Opportunity tracking
- Activity planning
- Conversion to quotation
- CRM dashboard

Related Process

BP-001 CRM Lead Management

Jira Epic Examples

- EPIC-CRM-001 Lead Management
 - EPIC-CRM-002 Opportunity Pipeline
 - EPIC-CRM-003 Customer Activity Management
 - EPIC-CRM-004 Lead to Quotation Conversion
-

CAP-SAL — Sales Management

Capabilities

- Quotation management
- Customer validation
- Sales order confirmation
- Price validation
- Stock availability check
- Delivery trigger
- Customer invoice trigger
- Sales KPI

Related Process

BP-002 Sales Order to Cash

Jira Epic Examples

- EPIC-SAL-001 Quotation Management
 - EPIC-SAL-002 Sales Order Confirmation
 - EPIC-SAL-003 Delivery and Invoice Integration
 - EPIC-SAL-004 Sales Dashboard
-

CAP-PUR — Procurement Management

Capabilities

- Purchase request
- Department approval
- RFQ
- Vendor invitation
- Vendor response
- Vendor comparison
- Vendor selection approval
- Purchase order
- Goods receipt
- Vendor bill validation
- Procurement KPI

Related Process

BP-003 Procure to Pay

Architecture Decision

RFQ-Centric Procurement Model

Jira Epic Examples

- EPIC-PUR-001 Purchase Request
 - EPIC-PUR-002 RFQ Management
 - EPIC-PUR-003 Vendor Response Management
 - EPIC-PUR-004 Vendor Comparison and Selection
 - EPIC-PUR-005 Purchase Order Generation
 - EPIC-PUR-006 Receipt and Vendor Bill Matching
-

CAP-INV — Inventory & Warehouse

Capabilities

- Stock availability
- Goods receipt
- Stock reservation
- Picking
- Packing
- Internal transfer
- Stock adjustment
- Stock valuation
- Inventory report

Related Process

BP-004 Inventory and Warehouse Operation

Jira Epic Examples

- EPIC-INV-001 Stock Availability
 - EPIC-INV-002 Receiving
 - EPIC-INV-003 Picking and Packing
 - EPIC-INV-004 Internal Transfer
 - EPIC-INV-005 Stock Valuation
-

CAP-MRP — Manufacturing Management

Capabilities

- BOM management
- Production order
- Component availability
- Component reservation
- Work order execution
- Quality check
- Finished goods receipt
- Production cost update

Related Process

BP-005 Manufacturing MRP

Jira Epic Examples

- EPIC-MRP-001 BOM Management
 - EPIC-MRP-002 Production Order
 - EPIC-MRP-003 Work Order Execution
 - EPIC-MRP-004 Quality Control
 - EPIC-MRP-005 Finished Goods Receipt
-

CAP-ACC — Financial Management

Capabilities

- Customer invoice
- Vendor bill
- Tax calculation
- Journal entry
- Accounting posting
- Payment registration
- Reconciliation
- Financial reporting

Related Process

BP-006 Accounting Invoice Payment Reconciliation

Jira Epic Examples

- EPIC-ACC-001 Invoice and Vendor Bill
 - EPIC-ACC-002 Tax and Journal Posting
 - EPIC-ACC-003 Payment Registration
 - EPIC-ACC-004 Reconciliation
 - EPIC-ACC-005 Financial Reports
-

CAP-HR — Human Resource Management

Capabilities

- Employee profile
- HR request
- Leave request
- Attendance
- Manager approval
- HR transaction update
- HR reporting

Related Process

BP-007 Human Resources Request Approval

Jira Epic Examples

- EPIC-HR-001 Employee Profile
 - EPIC-HR-002 Leave Request
 - EPIC-HR-003 Attendance
 - EPIC-HR-004 HR Approval
 - EPIC-HR-005 HR Reporting
-

CAP-SVC — Service & Project Management

Capabilities

- Ticket creation
- Task management
- Assignment
- Prioritization
- SLA tracking
- Timesheet
- Resolution review
- Service billing trigger
- Service KPI

Related Process

BP-008 Project Helpdesk Service Delivery

Jira Epic Examples

- EPIC-SVC-001 Ticket Management
 - EPIC-SVC-002 Project Task Management
 - EPIC-SVC-003 Assignment and SLA
 - EPIC-SVC-004 Timesheet
 - EPIC-SVC-005 Service Closure
-

CAP-DOC — Document & Approval Control

Capabilities

- Document upload
- Attachment management
- Metadata classification
- Document approval
- Comment thread
- Evidence archive

- Compliance reporting

Related Process

BP-009 Documents and Approval Control

Jira Epic Examples

- EPIC-DOC-001 Document Intake
- EPIC-DOC-002 Metadata and Classification
- EPIC-DOC-003 Approval Workflow
- EPIC-DOC-004 Evidence Archive
- EPIC-DOC-005 Compliance Report

CAP-EXE — Executive Intelligence

Capabilities

- Cross-module KPI
- Approval queue
- Exception alert
- Operational health
- Financial summary
- Procurement KPI
- Sales KPI
- Inventory KPI
- Executive decision support

Related Process

BP-010 Executive Cross Module ERP Flow

Jira Epic Examples

- EPIC-EXE-001 Executive Dashboard
- EPIC-EXE-002 KPI and Drilldown
- EPIC-EXE-003 Exception Alert
- EPIC-EXE-004 Approval Queue
- EPIC-EXE-005 Cross-module Reporting

4. Capability to Module Mapping

Capability	Primary Module	Supporting Foundation
CAP-SaaS	SaaS Foundation	Tenant, Subscription, Module Activation
CAP-IAM	Security / IAM	Role, Permission, Audit
CAP-CRM	CRM	Tenant, IAM, Notification

Capability	Primary Module	Supporting Foundation
CAP-SAL	Sales	CRM, Inventory, Accounting
CAP-PUR	Purchase	Inventory, Accounting, Documents
CAP-INV	Inventory	Purchase, Sales, Manufacturing
CAP-MRP	Manufacturing	Inventory, Quality, Accounting
CAP-ACC	Accounting	Sales, Purchase, Payment
CAP-HR	HR	Approval, Notification, Documents
CAP-SVC	Project / Helpdesk	Sales, Accounting, Documents
CAP-DOC	Documents / Approval	Approval, Audit, IAM
CAP-EXE	Executive Dashboard	All Business Modules

5. Capability Dependency Matrix

Capability	Depends On
Sales Invoice	Sales, Accounting, Customer Master
Delivery	Sales, Inventory
Purchase Receipt	Purchase, Inventory
Vendor Bill	Purchase, Accounting, Vendor Master
Manufacturing Order	Manufacturing, Inventory, BOM
Payment Reconciliation	Accounting, Payment
Approval Workflow	IAM, Approval Foundation
Executive Dashboard	Business Modules, Reporting Data
AI Task Execution	Jira, AI Assistance Layer, Human Review
Module Activation	Subscription, Tenant, IAM

6. Capability Maturity Level

ใช้วัดความพร้อมของแต่ละ Capability

Level	Meaning
L0	Not Defined
L1	Concept Defined

Level	Meaning
L2	Functional Design Drafted
L3	Review Gate Passed
L4	Implemented
L5	Tested and Accepted
L6	Production Ready

Initial Target:

Capability	Target v0.1
CAP-SaaS	L2
CAP-IAM	L2
CAP-PUR	L2
CAP-SAL	L1
CAP-INV	L1
CAP-ACC	L1
CAP-DOC	L1
CAP-EXE	L1
CAP-CRM	L1
CAP-MRP	L1
CAP-SVC	L1
CAP-HR	L1

7. Jira Epic Creation Rule

ทุก Capability ที่จะเริ่มพัฒนาต้องมี Jira Epic

Jira Epic ต้องระบุ:

- Capability Code
- Module
- Business Objective
- Functional Scope
- Requirement IDs
- Business Rule IDs
- UAT Coverage
- Review Gate Status
- Claude Task Reference

- Owner
 - Priority
-

8. Capability Review Gate

Capability จะผ่าน Architecture Review ได้เมื่อมี:

- Business Objective
- Process Mapping
- Functional Scope
- Business Rules
- Data Objects
- Integration Dependencies
- Security Rules
- UAT Scenarios
- Evidence Gap Status
- Jira Epic Mapping

หากไม่ครบ ให้สถานะ HOLD

9. Immediate Recommendations

Priority 1:

- CAP-SaaS SaaS Platform Management
- CAP-IAM Identity & Access Management

Priority 2:

- CAP-PUR Procurement Management
- CAP-SAL Sales Management
- CAP-INV Inventory & Warehouse

Priority 3:

- CAP-ACC Financial Management
- CAP-DOC Document & Approval Control
- CAP-EXE Executive Intelligence

Priority 4:

- CAP-CRM, CAP-MRP, CAP-SVC, CAP-HR
-
