

SMEPLUS Architecture Office Workplan v0.1

Project: SMEsPlus Enterprise Suite

Workspace: 99_SMEsPlus_Enterprise_Suite

Role: ChatGPT / Virtual Enterprise Solution Architect

Execution: Claude AI

Tracking: Jira

Status: Approved to Proceed

1. Immediate Work Packages

WP-001 Enterprise Architecture Standards

Create standard rules for:

- Module design
- SaaS foundation usage
- Functional requirement format
- Business rule format
- API naming
- Database naming
- Audit and traceability

Output: SMEPLUS-ENTERPRISE-STANDARDS-v0.1.md

WP-002 Architecture Review Gate

Create review checklist before Claude implementation.

Gate Areas: 1. Business Gate 2. Functional Gate 3. Data Gate 4. Integration Gate 5. Quality Gate 6. Security Gate 7. AI Governance Gate

Output: SMEPLUS-ARCHITECTURE-REVIEW-GATE-v0.1.md

WP-003 Jira Work Breakdown Standard

Define how Jira Epics, Stories, Tasks, Bugs, UAT, and AI Tasks must be structured.

Output: SMEPLUS-JIRA-WORKBREAKDOWN-STANDARD-v0.1.md

WP-004 Claude Handoff Standard

Define what Claude must receive before implementation.

Required Inputs:

- Requirement ID
- Business Rule ID
- Screen/API/Data reference

- Acceptance Criteria
- Test Scenario
- Evidence Gap status

Output: SMEPLUS-CLAUDE-HANDOFF-STANDARD-v0.1.md

WP-005 SaaS Foundation Review

Review the SaaS Foundation FDS and convert it into Jira-ready work items.

Output: SMEPLUS-SAAS-FOUNDATION-JIRA-MAPPING-v0.1.md

2. Execution Priority

Priority 1:

- WP-001 Enterprise Architecture Standards
- WP-002 Architecture Review Gate

Priority 2:

- WP-003 Jira Work Breakdown Standard
- WP-004 Claude Handoff Standard

Priority 3:

- WP-005 SaaS Foundation Jira Mapping

3. Working Rule

No Requirement ID = No Jira Task

No Business Rule = No Claude Implementation

No UAT = No Done

No Review Gate = No Merge

No Evidence = No Final Claim

4. Next Action

Start with:

SMEPLUS-ENTERPRISE-STANDARDS-v0.1.md
